**DETAILED ACTION*****Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submissions filed on 10 May 2010 and 14 June 2010 have been entered.

***Information Disclosure Statement***

2. The information disclosure statement (form 1449) filed 14 June 2010 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. The examiner could not find that a copy of the one cited document was submitted. The IDS has been placed in the application file, but the form 1449 is being returned without an indication that the subject document has been considered.
3. However, the examiner has found what appears to be the subject document ("Introduction to TCP/IP", by Yale University's PCLT, dated 2 February 1995).<sup>1</sup> This document has been considered and is record herewith. Hence, applicant need not re-submit the IDS if the document made of record herewith by the examiner is that which was intended by the IDS.

***Allowable Subject Matter***

4. Claims 6-8, 10-12, 14-17, 19-21, 23, 26 and 27 are allowed.
5. The following is an examiner's statement of reasons for allowance: These claim were allowed in an Office action mailed 8 February 2010. Applicant vacated that allowance by filing an RCE with IDS, which has been considered. The claims (as made of record 6

---

<sup>1</sup> The found document's identification matches that on the IDS, but the Internet address given on the IDS form 1449 no longer exists.

Art Unit: 3688

January 2010) are still allowable for the reasons given in the Office actions mailed 8 October 2009 and 27 June 2005, with the following supplement.

6. The claim limitation, "associating an advertisement with at least one of said supercategories" (e.g., claim 6 line 6), is interpreted to mean directly associating, not associating with a subordinate category which is in turn associated with the supercategory. This interpretation was implied by the last rejection on the merits (para. 6 of the Office action mailed 27 June 2005) and is consistent with the disclosure (e.g., spec. p. 2 lines 18-20).
7. *GTE Superpages* was cited as the closest non-patent prior art (para. 7 of the Office action mailed 8 October 2009). Also close NPL is Blankenhorn, an article made of record herewith that discusses a number of prior art online business directories. Neither this nor any other NPL prior art teaches or suggests, "associating an advertisement with at least one of said supercategories, the advertisement being separate from the documents contained in the at least one category". It has been noted (para. 6 of the Office action mailed 27 June 2005) that this limitation is taught by the Kramer patent, but the instant invention is still not obvious from the prior art for the reasons given therein.
8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
